

AFM Students,

At this point in time, the district is saying not to assign new material, instead we should review old material. All review posted below is **OPTIONAL**.

We have all notes videos posted to our website (pchsafm.weebly.com). We would like to encourage you to watch them so that when we do return to school, it will make learning the concepts easier for you (especially if we are given time constraints due to this time out). We have also posted all delta math homework for the remainder of the semester if you would like to get a head start on those.

If you haven't completed each homework assignment to 100% and would like the opportunity to remediate that grade, please feel free to now complete them to 100% to earn full credit (make sure to let your teacher know once you have made up a module, so that they know to update your grade). We would also like to encourage you to complete all test and quiz corrections that you have yet to complete during this time.

Again, until we have further information we will not move on to new material, and all options listed above are optional.

Please reach out via email or remind with any questions.

Stay safe!

AFM Teachers
